

TOPS – Session 1 Assignment

What is Programming?

Question 1

Write a short paragraph in your own words defining what a 'program' is and give one real-life example from any app you use daily.

Answer: A program is a set of instructions given to a computer to perform a specific task. Programs help us use different applications and perform various activities easily. For example, Instagram is a program that allows us to upload photos and videos, send messages, and view posts and reels.

Question 2

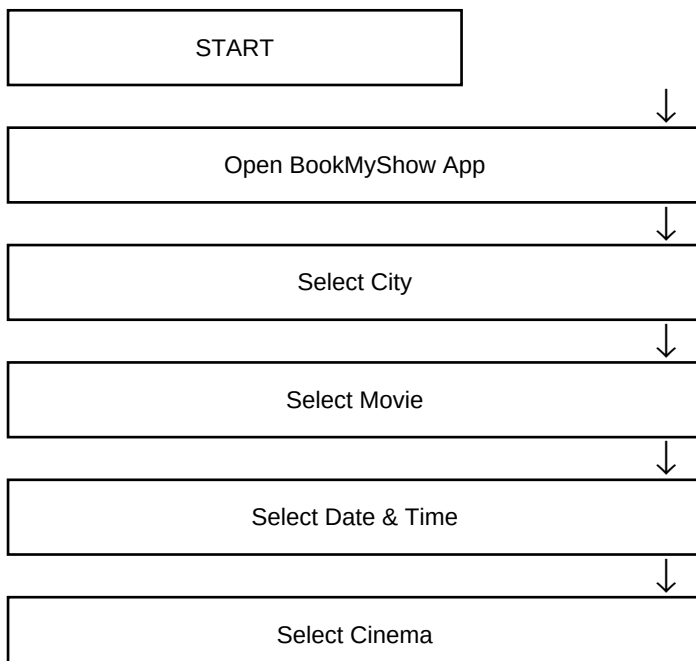

List three popular programming languages you have heard of, and for each, mention whether it is usually compiled, interpreted, or can be both.

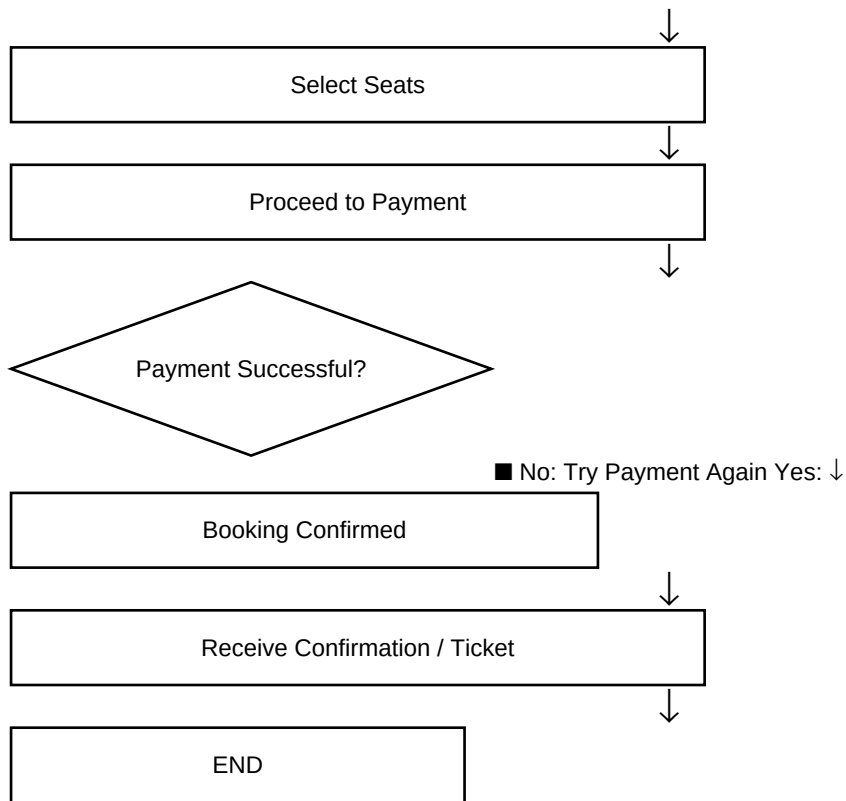

Programming Language	Usually
Java	Compiled
Python	Interpreted
JavaScript	Interpreted

Question 3

Draw a flowchart for the process of booking a movie ticket on BookMyShow, starting from opening the app to receiving the booking confirmation.

Answer – Flowchart:

Note: In a hand-drawn version, use an oval for Start/End, rectangles for processes, and a diamond for the decision.

Question 4

Write down the steps (as an algorithm, using simple numbered instructions) for ordering food on Swiggy — from opening the app to completing payment.

1. Start.
2. Open the Swiggy app.
3. Log in or enter the required details.
4. Enter or select the delivery address.
5. Search for a restaurant or food item.
6. Select the restaurant.
7. Choose the food items.
8. Add the selected items to the cart.
9. Check the order details and total amount.
10. Click on “Proceed to Pay”.
11. Select a payment method.
12. Complete the payment.
13. Wait for the payment confirmation.

14. Receive the order confirmation.

15. End.
